## HISTORICAL NOTICE.

---

ON the 23rd December, 1878, a Royal Commission was appointed to inquire into and report upon the operations of the University of New Zealand and its relations to the Secondary Schools of the Colony, and upon the best means of bringing secondary and superior education within the reach of the youth of both sexes. The Commission in its report, under date 9th July, 1879, among other things recommended that the inequality in the educational institutions of the two islands should be removed by establishing, at the most important centres of population in the North Island, Colleges capable of supplying an education of the same standard as that provided by the University of Otago and Canterbury College, and proposed that the Government should invite the Legislature to make immediate provision for the establishment of two Colleges, one at Auckland and the other at Wellington, of such a character as has been indicated. The Commissioners further stated that "They were of opinion that it will be necessary for the Government, either to select out of lands at its disposal suitable sites for College buildings at Auckland and Wellington, or to acquire such sites, and that two grants of £12,500 each should be made for the building of the two Colleges and for fittings and apparatus," and went on to say, "Although these sums are not equal to those expended for like purposes in Dunedin and Christchurch, we think they will be found sufficient for present requirements."

For the annual maintenance of these two Colleges the Commissioners suggested that the Government should utilise the reserves set apart

for the promotion of higher education in the Provincial Districts of Auckland and Wellington, and as the present endowments may be presumed to be inadequate, the two Colleges should be respectively endowed with Crown lands sufficient to provide an immediate income to each amounting to £4,000 per annum; and if that is not practicable, the deficit in each case, until such income is realised, be made good by a pecuniary grant.

A College was established in Auckland by "The Auckland University College Act, 1882."

Nothing was done for Wellington until the year 1894, when an Act was passed entitled "The Middle District of New Zealand University College Act, 1894," which said, "There shall be established in the city of Wellington a College to be connected with the University of New Zealand," and provision was made for a governing body, to be called the Council, but no provision was made for any pecuniary grant or endowment, and though certain members of the Council were appointed, nothing could be done for want of funds.

In the year 1897 the Right Hon. R. J. Seddon, P.C., Premier of the Colony, introduced into Parliament the Victoria College Act; an Act, as stated in the preamble, "to promote Higher Education by the establishment of a College at Wellington in commemoration of the sixtieth year of the reign of Her Majesty Queen Victoria," the College being intended to embrace in its work the Provincial Districts of Wellington, Taranaki, Hawke's Bay, Nelson, Marlborough and Westland. The Act was passed on the 22nd December, 1897, the Council was formed, and the work of organisation was begun. The Act provides for the payment out of the Consolidated Fund of a grant of £4,000 a year, and out of this sum the Council was required to give six Scholarships each year called "Queen's Scholarships," to persons of either sex under the age of 14

years upon the results of an examination under such conditions as the Council may prescribe. In 1903 an amending Act was passed providing for six Junior and four Senior Queen's Scholarships. In 1906 the College was relieved of the payment of these Scholarships. By the Education Act Amendment Act 1907, the Queen's Scholarships were abolished. Since 1905 the College has received from Parliament an annual grant of £2,000 for specialisation in Law and Science. The Act of 1897 further sets apart a parcel of land 4,000 acres in extent in the Nukumarū Survey District (Wellington Provincial District) as an endowment for the College.

The Council decided to begin by the appointment of four Professors for the Chairs of English Language and Literature, Classics, Mathematics and Mathematical Physics, and Chemistry, and the following were appointed:—Classics, J. Brown, M.A., St. Andrews and Oxford; English Language and Literature, H. Mackenzie, M.A. St. Andrews; Chemistry and Physics, T. H. Easterfield, M.A. Cambridge, Ph.D. Wurzburg; Mathematics, R. C. Maclaurin, M.A., LL.D. Cambridge. These Professors arrived in the Colony at the end of March, 1899, and as soon as possible classes were organised and lectures begun. Having no College buildings the Council arranged for the use of rooms in the Girls' High School and in the Technical School Buildings belonging to the Education Board. In addition to the four Professors first appointed, G. W. von Zedlitz, M.A., Oxford, was appointed Professor of Modern Languages in December, 1901, H. B. Kirk, M.A., N.Z. was appointed Professor of Biology in March, 1903, and J. W. Salmond, M.A., N.Z., LL.B., London, Fellow of University College, London, was appointed Professor of Law in December, 1905, and M. W. Richmond, B.Sc., London, LL.B., N.Z., was appointed Professor of

English and New Zealand Law in 1906. In 1908 J. Adamson, M.A., LL.B., Edinburgh, was appointed Dean of the Faculty of Law, Professor Salmond having resigned. Provision was made for the teaching of Mental Science, Economics, and Education by lecturers. T. A. Hunter, M.A., M.Sc., was appointed Professor of Mental Science and Economics in November, 1907. W. Gray, M.A., B.Sc., Principal of the Training College, Wellington, was appointed Lecturer on Education in 1905. The Council has now appointed T. H. Laby, B.A., Professor of Physics, C. A. Cotton, M.Sc., Lecturer in Geology, and F. P. Wilson, M.A., Lecturer in Economics. The College was by the Senate of the New Zealand University admitted as an institution affiliated to the University of New Zealand on the 23rd February, 1899.

In 1900 an Act was passed whereby the College Council was empowered to acquire a site for the College buildings, being part of a town reserve situated on Salamanca Road, containing six acres, and the Government has provided £31,000 towards the cost of buildings. A portion of the buildings has been erected, the foundation stone having been laid by His Excellency Lord Plunket, K.C.V.O., on the 27th August, 1904.

## SUGGESTIONS TO STUDENTS

(a) Intending students are advised to map out their course as far as possible at the beginning of their College career so as to avoid clashing in their classes.

(b) Students who are taking an Arts Degree are recommended to take during their first two years such subjects as they have already studied at school.

(c) The Professorial Board wishes to discourage the idea that any student is likely to pass his Degree Examination in any subject in Arts or

Science on one year's work, unless he has had some previous acquaintance with the subject in question.

(d) The Chairman of the Professorial Board or any Professor will be glad to advise students with regard to their work. All students proposing to read for Honours in any subject are advised to consult the Professor in that subject before arranging their course.
