The Professorial Board supervises the courses of all new students. Before enrolment in classes a record of the proposed course of study, signed by the Chairman of the Professorial Board, or by the Chairman of one of the Faculties (of Arts, Science, or Law), must be in the hands of the Registrar. In the case of a student proceeding to one of the University degrees, this record shall state the complete course of study proposed for that degree; and subsequent departures (if any) from such proposed course will have to be similarly recorded.

New students should send in to the Registrar, preferably before the beginning of term, either

- (1) notification of the courses they have provisionally determined upon, or
- (2) request for advice upon their courses, accompanied by such relevant facts as may be available.

In case of (1) the matter will normally be dealt with by instructions posted on the College notice board. In case of (2) appointments will be made.

In planning provisional courses the Terms Regulations and the Timetable of classes must be carefully regarded.

2. The following are the subjects recognised in this College for keeping Terms:—(1) Latin, (2) Greek, (3) English, (4) French, (5) German, (6) Philosophy, (7) Education, (8) Economics, (9) Constitutional History and Jurisprudence,\* (10) English History, (11) Pure Mathematics, (12) Applied Mathematics, (13) Physics, (14) Chemistry, (15) Biology, (16) Geology, (17) Geography (B.Com. only), (18) Law.†

A student shall not be considered to have fulfilled the attendance requirement in a subject if he has been absent from more than one-tenth of the lectures in the subject.

4. The Examinations prescribed for the keeping of Terms may be passed in the same or in different years.

Note.—This regulation does not apply to Terms Examinations held prior to 1916.

(b) To keep Second Year Terms a student must have kept First Year Terms and must pass the College Examinations in the subjects he is offering for a Section of a Degree at a stage corresponding to that of the University Examination.

(c) To keep Third Year Terms a student must have kept Second Year Terms and must pass the College Examinations in the remaining subjects required for the Degree of B.A., or B.Sc., at a standard corresponding to that of the University Examination.

\*Jurisprudence and Constitutional History count as a single subject in the Faculty of Arts, but as two separate subjects in the Faculty of Law. First Year Terms in Law may be kept by passing in either of these subjects together with one other subject. For Second Year Terms, Jurisprudence and Constitutional History must be passed at the same examination.

†Terms may be kept in Law subjects only, by Scholars, but all LL.B. students must pass the Terms Examination in all the subjects of the First Division of the examination for LL.B.

6. A holder of a Junior University or a Senior National Scholarship who, after keeping First Year Terms, has passed a Section of the B.A., or B.Sc., Examination;

(a) To keep Fourth Year Terms must pass the College Examination in two of the subjects required for the second degree at a standard corresponding to that of the University Examination;

(b) To keep Fifth Year Terms must have kept Fourth Year Terms and must pass the College Examination in the remaining subjects required for the Degree at a stage corresponding to that of the University Examination.

8. For keeping Terms in Science the Practical Examination or performance of a practical course to the satisfaction of the instructor shall be deemed to be a part of the College Examination; and, unless specially exempted by the Science Faculty, a student presenting himself for a College Examination in a Science subject for the purpose of keeping Terms must do the practical work in that subject in the year in which he so presents himself.

9. Students must notify to the Registrar, on or before the first day of May, the subjects in which they wish to keep terms; an advanced subject must be notified as such.

10. (a) Exemption from lectures is provided for under certain conditions.

(b) To keep terms, exempted students must pass the Annual College Examination in the requisite number of subjects, and all the above regulations shall apply to them except that of paragraph 3.

(c) The fee for the Annual Examination of any student exempted from attendance at lectures shall be one guinea for each subject in which he is examined, and if fully exempted a further fee of one guinea.

#### SPECIAL EXAMINATION FOR TERMS IN MARCH.

11. (a) In certain cases the Professorial Board is prepared to admit students who have failed in any subject or who have been prevented by illness or any other cause satisfactory to the Board from sitting at the examination in October to a special examination in the following March.

(b) Students who are granted this privilege shall be notified of the fact by the Registrar after the Annual Examination, and must intimate their intention of availing themselves of it before the end of January.

(c) The fee for such special examinations shall be one guinea for each subject.

(d) The examination will be held during the first week in March.

(e) The foregoing regulations re Term's Examination in March do not apply to exempted students.

\* An advanced subject in accordance with the New Zealand University B.A. or B.Sc. Degree Statute counts as a separate subject for keeping terms.

N.B.—In no case shall a fee be refunded. But if a candidate be prevented by sickness, or other sufficient cause, from taking the examination, the fee shall be credited to him for a future examination: provided that such credit shall not extend for more than two years. If, after payment of a fee, the candidate be removed to another College district, the fee shall be transferred to his credit at that College.

NOTE.—The foregoing regulations as to terms, which came into force at the College examinations of October, 1916, are not retrospective.

### FEES

**COLLEGE FEE:**—Every student is required to pay a College Fee of ten shillings and sixpence per annum for general tuition.

Enrolment in a class shall be regarded as rendering the student liable for full fees. Attendance at a class will be debarred if fees have not been paid after two weeks' lectures. #### BOTANY SESSION OF 1919.

It is essential that students should provide themselves with text-books, and should read fully and carefully. It would be impossible to cover the whole ground of the syllabus in one year's lectures. The Professor will advise students as to which text-books they should by no means be without. Every student should come to lecture with some ideas, and with notes as to the difficulties that his preliminary study has not removed. It is part of the duty of the Professor to help him with these difficulties.

In 1919 the Botany lectures for new students will cover, as far as possible, the ground of the Pass syllabus for B.A. But all students that can do so with advantage, those especially that have already some knowledge of Botany, should attend some or all of the second year's lectures that will be given specially for the benefit of students that began work in 1918. These lectures will deal with the general questions of heredity, variation, evolution, &c., and with the prescribed natural orders.

The hours of lectures for new students will be:—Monday 5 p.m., Tuesday 4 p.m., Thursday 4 p.m., and a tutorial class will probably be held on Thursday at 7 p.m.

The hours for second-year students will be 3 p.m. on Tuesday, Thursday and Friday.

A minimum of five hours a week is to be devoted to practical work. No student must allow himself to lag behind the rest of the class in practical work. Each period of work should be not less than two hours, in order to avoid the loss of time in making preparation.

In "Repeat" Botany the lectures will be for those students that have already attended the "Pass" course.

Text Books:—Practical Botany for beginners, (Bower & Vaughan) (3/6); Dendy and Lucas's Introduction to the Study of Botany (4/6); Cockayne, New Zealand Plants and their Story, Government Printing Office (4/-); or A Class Book of Botany, (Mudge and Maslem), (Arnold) (7/6); or Miss A. S. M. Johnston's Botany (Allman and Co.) (7/6); Strasburger's Text Book of Botany (third English edition) (21/-).

Students should supply themselves with the following appliances:—A note-book and a drawing-book, (the latter with alternate pages ruled for notes), two pencils, a pair of forceps, two mounted needles, a razor, and a pocket magnifying-glass.

Students of Botany, whether formally attached to the College or not, may obtain from the Professor permission to refer to the late Mr. T. Kirk's herbarium of New Zealand Flowering Plants, and to the late Dr. Knight's herbarium of Lichens (presented to the College by Mrs. Knight).

#### ZOOLOGY, SESSION OF 1919.

The remarks under the head Botany generally apply here also. The hours of lectures for "Pass" students (students entering upon their work in 1919) will be:—Monday 4 p.m., Tuesday 4 p.m. (with the Botany students), Wednesday 4 p.m., with a tutorial class at 4 p.m. on Friday.

The hours for second-year students will probably be:—Monday 3 p.m., Tuesday 3 p.m. (with second-year Botany students), Wednesday 3 p.m., Friday 3 p.m. But the hours for second-year students in 1919 may be altered somewhat to meet the convenience of the class.

**Text Books:**—Marshall and Hurst's Practical Zoology (fifth edition) (10/6); Thomson's Outlines of Zoology (10/6).

Students should supply themselves with the following appliances:—A note-book and a drawing book. Two pencils—one hard and one soft. Dissecting instruments—scissors, forceps, scalpels (2), anatomical blow-pipe, mounted needles, seeker, razor with straight edge (better not hollow-ground), pocket magnifying-glass. Duster and hand-towel.

Students will be required to spend at least five hours a week at practical work.
